Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown  
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in July 2005 and no WBCR was observed. The stream did not meet the maximum depth or average depth criteria at 2 of 2 sites. The sites were in the uppermost reach of the stream. An interview revealed that people wade but do not swim. Although the stream seems shallow at the two sites evaluated, no evaluation was conducted of a major portion of the segment. Because of this, the committee has insufficient information to make a recommendation.

**Committee Recommendation:** ☐ Retain Use ☐ Modify Use ☐ Remove Use ☒ Inconclusive
